

RESQUNIT

2022 ANNUAL REPORT

Released April 28th 2023

Resqunit AB

www.resqunit.com

Building sales pipeline, back orders, and distribution while handling manufacturing delays

“

As we wrapped up 2022, we were pleased to report an order backlog of over 10 MSEK and a sales pipeline exceeding 15 MSEK. In our unwavering commitment to delivering products of the highest quality and safety standards, we have made some minor product modifications that were identified during the final quality control process, resulting in some manufacturing delays. Despite these setbacks and the additional challenges brought on by the Covid-19 pandemic, our professional team has been able to effectively navigate these hurdles, allowing our manufacturing to bounce back to start product deliveries in Q1 2023.

Helge Trettø Olsen, CEO Resqunit AB

 Earnings per share -0,86 SEK (-1,10 SEK)

Letter from the CEO

Dear Shareholders and Stakeholders,

I am pleased to report that 2022 has been a year of significant progress for Resqunit. Our mission to combat ghost fishing and promote sustainable fishing practices has gained momentum, as demonstrated by a scientific study highlighting the need for our solutions. This has reinforced the importance of our innovations and products.

As we exited 2022, we had an order backlog of more than 10MSEK a testament to our team's hard work and dedication in securing orders and building relationships with our customers. While we faced some minor issues during final quality control that delayed our manufacturing, our professional team ensured that our manufacturing capabilities bounced back from these delays and some extra challenges related to the instabilities of our times.

We also successfully carried out a new capital raise, enabling us to fulfill the conditions required to raise loans of NOK 7.50 million from Innovation Norway and DNB ASA. This combination of equity and loans gave us the necessary capital for investments required for mass production, securing our

deliveries. Deliveries that are now ongoing. We are proud to announce that our pre-revenue phase is over, and we are poised to start creating significant shareholder value in 2023. New market verticals are emerging, as the market finds new applications for our product, inside and outside of the fishing industry, that gives us increased sales opportunities for our customized product offerings in the coming year.

Our efforts to raise awareness about the threat of ghost fishing and the value of our solutions have yielded excellent results. Our products were featured on Discovery Channel's "The Viking Returns," giving us tremendous exposure in over 100 countries. We are excited to capitalize on this exposure and turn it into meaningful growth for our company.

As we continue to develop innovative solutions and expand our markets, we are optimistic about the future and eager to demonstrate the value we can bring to the industry and the environment.

To optimize our operations and reduce our manufacturing costs, we are exploring new ways to make our product more efficient and less expensive

to manufacture. We are also tailoring our product to meet the needs of different markets, increasing demand and maximizing profits. In addition, we are building an infrastructure through partners to increase direct sales and reduce reliance on distributors.

We are also aware of the risks associated with manufacturing in China and are in the final phases of establishing a safer alternative without compromising quality or increasing costs.

As a global company committed to sustainable growth and responsible business practices, we are confident that our efforts will drive profitability and maximize shareholder value.

Thank you for your continued support and trust in Resqunit.

Main events 2022

February 10th, Resqunit announced a distribution agreement with West Coast Lobster License Sales Inc. in Australia

February 14th, Resqunit announced engagement of European key account sales manager José Silva

February 23rd, Resqunit announced the distribution agreement with Enterprises Shippagan Ltd. in Shippagan, New Brunswick, Canada

February 28th, Resqunit announced engagement of CFO Henning Johannessen

March 1st, Mangold Insight released its analysis of Resqunit AB with the recommendation Buy, and the target price of SEK 9.80 per share in 12 months term

March 26th, Resqunit attended the biggest expo for commercial fisheries in Canada with live product demonstrations

April 6th, Resqunit received breakthrough initial order from Enterprises Shippagan in Canada

April 26th, Resqunit was present at the Seafood Expo Global in Barcelona meeting Norwegian Minister of Fisheries

May 12th, Resqunit was visited by Honorable Jamie Fox, Minister of Fisheries and Communities for the Province of Prince Edward Island in Canada, at Åkra, Norway, for product demonstration

May 23rd, CEO Helge Trettø Olsen and KAM Jose Silva introduced the concept to leading researchers in ghost fishing at the Center of Marine Science (CCMAR), Algarve, Portugal

June 13th, Resqunit participated in H2O Conference in Halifax Nova Scotia where Minister Steve Craig stated he was fully supportive of our products

June 16th, Resqunit Canada had product demonstrations to at Centre for Ocean Ventures & Entrepreneurship demoday in Nova Scotia, meeting with the Minister of Fisheries and DFO in attendance

June 27th, Resqunit attended UN Ocean Conference 2022 seeking to propel much needed science-based innovative solutions aimed at starting a new chapter of global ocean action.

August 23, Resqunit participated in the on-stage discussion at Nor-Fishing, one of the largest fishing fairs in the world, and met with Norwegian Minister of Fisheries. An important achievement by our team in the promotion of the solutions.

September 7, our CEO Helge Trettø Olsen presented Resqunit at the Mangold Insight event Tech Invest.

September, Resqunit was selected to join Blue Bio Value Acceleration's 5th edition, as one of 18 startups from 12 different countries, training of our sales team.

September 12, Resqunit conducted a directed issue of approximately 2,75 MSEK at a price per share of 5 SEK.

October 5, Chief Sales Officer Erik Nobbe and Captain Sig Hansen participated at the "Ocean Health Is Wealth: Ocean-Friendly Solutions for Aquaculture and Fishing" at The Responsible Seafood Conference, in Seattle, USA.

October 12, Resqunit attended the 24th Annual Nova Scotia Department of Fisheries and Aquaculture Minister's & at the SeaFarmers Conference in Halifax, Nova Scotia.

October 17, CEO Helge Trettø Olsen's Resqunit AB company update was broadcasted by Financial Stockholm.

October 28, Resqunit CEO interviewed by Aquademia podcast from Global Seafood Alliance. Discussing innovation and combatting ghost gear.

November, Our product is installed on Sig's crab pots used in the TV show "The Viking Returns" on Discovery Channel, giving exposure to a large audience worldwide.

November 8, Resqunit attended the Börsevent by Michel Issa in Stockholm at the Oscar Theatre, with our CEO on stage presenting Resqunit.

November 17, Resqunit presenting at DNB NXT Stavanger, at the event named "Redefining Growth".

IMPORTANT EXTERNAL EVENT

October 22, 2022, THE MSC FISHERIES STANDARD VERSION 3.0 was launched, putting greater responsibility on certified fisheries to prevent and reduce the impact of lost fishing gear.

March 22nd, 2022, the United Nations Environment Assembly (UNEA) voted to formulate an international legally-binding instrument by 2024 to end plastic pollution

The product on Discovery Channels "The Viking Returns"

After 2022

January 2023 - Resqunit entered into a distribution agreement with Ad Mare Solutions Lda to bring Resqunit Trap Recovery System to the Portuguese market.

February 2023 - Resqunit announced a significant milestone in its global expansion strategy with the signing of a distribution agreement with Interma Group. This partnership will see Resqunit products sold in over 70 countries.

INSTITUTIONAL INVESTORS DSD AS AND MIF MARINE INVEST

January 23, 2023, Resqunit completed a directed private placement of SEK 3.75 million to the institutional investors DSD AS and MIF Marine Invest with a subscription share price of SEK 4.50.

Both investors are reputable institutional investors with long-term goals of investing in companies committed to sustainable practices that have a positive impact on the environment.

DSDs CFO Siv F. Christensen and Helge Trettø Olsen, CEO in Resqunit.

OPTIMIZING PRODUCTION

As a company committed to delivering value to our customers and maximizing profits for our shareholders, Resqunit is constantly seeking new ways to optimize our operations and reduce our manufacturing costs.

In addition to our focus on optimizing our manufacturing processes, we are also exploring ways to make our product more attractive to different markets worldwide.

We are conducting market research to understand the specific needs and preferences of our target customers, and we are incorporating this feedback into our product design and development process. By tailoring our product to meet the needs of different markets, we can increase demand and maximize profits.

Geopolitics and risk management

As a global company, Resqunit is aware of the risks associated with manufacturing in China, particularly in light of the current geopolitical situation and potential trade blockades and tariffs.

While we have historically relied on Chinese manufacturing partners to produce our product, we are aware of the potential risks and are closely monitoring the situation.

As part of our commitment to sustainable growth and risk management, we are currently in the final phases of establishing a safer alternative for manufacturing without increasing costs.

We are exploring other manufacturing partners and locations that offer greater stability and security, and we are confident that we will be able to transition to this new arrangement without compromising on quality or increasing costs.

By proactively addressing this potential risk, we can continue to deliver value to our customers and shareholders while minimizing potential disruptions to our operations.

SALES AND INFRASTRUCTURE

In addition to our efforts to reduce manufacturing costs, Resqunit is also building an infrastructure through partners to increase direct sales, strengthening our position and reach in areas not covered by our distributors and partners.

Our strategy of maintaining solid and reputable distributors, such as Interma and Enterprice Shippagan, to penetrate the epicenters of important markets remains an important part of our overall strategy.

By establishing strong partnerships with key players in the industry and expanding our online presence, we aim to streamline the sales process and reduce costs associated with distribution.

Through this approach, we can offer better pricing to customers, while increasing our profit margins and maintaining control over the sales process. By focusing on direct sales and building strong relationships with customers, we can also gather valuable insights into customer needs and preferences, allowing us to continually improve our product and maintain a competitive edge in the market.

This approach aligns with our commitment to sustainable growth and responsible business practices, while also driving profitability and maximizing shareholder value.

Our CTO José Silva (right) had a productive meeting with José Maria Costa, Secretary of State for Sea, Portugal

THE MSC FISHERIES STANDARD VERSION 3.0

The MSC Fisheries Standard was developed in 1998.
Today more than 530 fisheries are certified to the MSC Fisheries Standard.

New and stronger requirements

The updated Fisheries Standard places increased accountability on certified fisheries to prevent and minimize the effects of lost fishing gear, commonly referred to as ghost gear. To maintain their certification, fisheries must implement strategies to decrease ghost fishing.

Our product simplifies the process for fisheries to adhere to these new regulations, ensuring compliance with ease.

Company operational updates

Sales activities

As we wrapped up 2022, we were pleased to report an order backlog of over 10 MSEK and a sales pipeline exceeding 15 MSEK.

Our products were featured on Discovery Channel's "The Viking Returns" where they were prominently displayed throughout the series.

We have noticed a significant increase in interest from regions where we have not yet established a presence. We are excited to capitalize on this exposure and turn it into meaningful growth for our company.

Global Ocean Data

We are excited to announce that Resqunit AS has successfully acquired the remaining shares of our subsidiary, Global Ocean Data AS.

A merger process was started in December 2022 and was finalized in February 2023, and has allowed us to streamline our operations and significantly decrease our monthly burn rate by more than 400,000 SEK.

While we remain attentive to the ocean data space, we are committed to expanding our current product offerings and building a robust brand that creates value for our shareholders in 2023 and beyond.

Our focus is on solidifying our position in the market and laying the groundwork for our data harvesting business model in the future. We believe that this strategic move will position us for long-term growth and profitability.

Delays in manufacturing

While we have experienced some delays in our manufacturing process, we have been working diligently

to address the issues and get back on track.

One of the reasons for delays in the timeline for the first batch was some unforeseen challenges and quality control concerns around certain materials used in the production of key components.

Additionally, the pandemic and related supply chain disruptions, as communicated to the market earlier, have impacted the production of certain components.

Despite these challenges, we remain committed to ensuring that our customers receive the highest quality products as soon as possible.

Resqunit technology in new markets

Ropeless fishing is a rapidly growing fishing method to mitigate whale entanglement issues. The equipment needed for this practice is very expensive, and the loss risk is relatively high. We have been targeting this market for quite some time, arguing that we have the perfect back-up solution to prevent loss.

In November 2022 we received our first order for a trial project in this fast-growing market. This spring dungeness crab fishermen will utilize our technology under a state issued experimental fishing permit in USA. Proven successful this will open a new high value market for the company in Canada, USA, New Zealand and Australia in particular.

SELECTED FINANCIAL OVERVIEW

Resqunit AB was founded 9 September 2021. The sole purpose of Resqunit AB is to be a holding company. The company holds no other assets than 100 % of the shares in Resqunit AS (Norway). The operations in Resqunit AS and its subsidiaries Resqunit Canada Inc (90 %) and Global Ocean Data AS (100 %), are therefore the basis of the group's financials. Global Ocean Data AS was merged with Resqunit AS in February 2023.

The financial information chapter includes actual figures for both H2-2022 and the financial year 2022 and proforma figures for H2-2021 and the financial year 2021. A batch of goods produced in Q1/2023 is reclassified from stock to prepayments/ other receivables as of 31 December 2022. There are no other deviations from the Q4-report published February 24 2023.

As Resqunit AB was founded in September 2021 the purpose of the proforma financial information included, has been to describe the hypothetical situation where Resqunit AS, Resqunit Canada Inc

and Global Ocean Data AS have been consolidated in Resqunit AB group accounts for the full 2021 financial year and has been prepared solely for illustrative purposes.

Furthermore Resqunit AS acquired the shares in Global Ocean Data AS on 1 July 2021, but in the proforma figures Global Ocean Data has been consolidated from the date of incorporation 12 February 2021. No other proforma adjustments have been made. The proforma figures are marked "Proforma" in the headline above each table.

The proforma financial information does not necessarily reflect Resqunit AB's actual results and/or financial position as if the transaction had been undertaken at the earlier date set out below, and such proforma financial information should not be regarded as an indication of Resqunit AB's results or financial position for any future period. Consequently, potential investors should not attach undue importance to the proforma financial information.

All selected financial information for the Group members has been collected from the historical financial information per subsidiary and been consolidated. All the financial information has been established in accordance with the Annual Accounts Act and the Swedish Accounting Standards Board's general advice (BNAR 2012:1) and guidance on annual accounts and consolidated accounts (K3).

This section shall be read in conjunction with "Comments on the financial information".

The Financial Statements and the proforma accounts have not been audited.

The proforma information is prepared in accordance with Resqunit AB accounting principles as described below. There have been no proforma adjustments of the historic numbers.

Income statement – classified by nature of expense

The table below sets out selected data from the Group companies' consolidated income statement for the financial year ended 31 December 2022, with comparable figures for the financial year ended 31 December 2021 as well H2- figures for the financial year ending December 31 2022 with comparable 2021 figures. Corresponding figures for the parent company Resqunit AB is also included. (*) For Resqunit AB the H2-2021 figures is equal to the figures for financial year 2021.

Definition and derivation of key figures

Net sales	The Company's operating income from sales and commercial grants
Operating profit	The Company's operating profit before financial costs and taxes
Earnings per share	The period result in relation to number of shares at period end
Equity per share	The period equity in relation to number of shares at period end
Solidity %	The period equity in percent of total assets

Accounting policies

Consolidation principles

The proforma consolidated financial statements consist of Resqunit AB and its subsidiaries, where Resqunit AB has a controlling interest through legal or actual control. The proforma consolidated financial statements are prepared in accordance with uniform accounting policies for uniform transactions in all companies included in the consolidated financial statements. All material transactions and group inter-company balances are eliminated.

Shares in subsidiaries are eliminated in accordance with the acquisition method. This involves the acquired company's assets and liabilities being assessed at fair value on the date of acquisition, and any value added is classified as goodwill. For partially owned subsidiaries, only Resqunit AB's share of the goodwill is included in the balance sheet.

Valuation and classification of assets and liabilities

Assets intended for permanent ownership or use in the business, are classified as non-current assets.

Other assets are classified as current assets. Receivables due within one year are classified as current assets. The classification of current and non-current liabilities is based on the same criteria.

Current assets are valued at the lower of historical cost and fair value.

Fixed assets are carried at historical cost but are written down to their recoverable amount if this is lower than the carrying amount and the decline is expected to be permanent. Fixed assets with a limited economic lifetime are depreciated on a systematic basis in accordance with a reasonable depreciation schedule.

Other long-term liabilities, as well as short-term liabilities, are valued at nominal value.

Foreign currency

All balance sheet items denominated in foreign currencies are translated into SEK at the exchange rate prevailing at the balance sheet date.

Intangible fixed assets

Expenses relating to the development of intangible assets, including research and development expenses are capitalized, providing a future financial benefit relating to the development of an identifiable intangible asset can be identified, and the cost of the assets can be reliably measured. Intangible assets with a limited economic life are amortized on a systematic basis. Intangible assets are written down to the recoverable amount if the expected economic benefits are not covering the carrying amount and any remaining development costs.

Inventories

Inventories are recognized at the lower of cost in accordance with the FIFO method and net realizable value. For raw materials and work in progress, the net realizable value is based on estimated selling price of finished goods, less the remaining production and sales costs. Self-produced goods are recognized at the lower of full production cost and fair value.

Revenue

Revenue is recognized when it is earned, i.e. when both the risk and control have been mainly transferred to the customer. This will normally be the case when the goods are delivered to the customer. The revenue is recognized with the value of the compensation at the time of transaction.

Receivables

Trade receivables and other receivables are recognized at nominal value, less the accrual for expected losses of receivables. The accrual for losses is based on an individual assessment of each

receivable.

Cash and cash equivalents

Cash and cash equivalents include cash, bank deposits and other monetary instruments with a maturity of less than three months at the date of purchase.

Pensions

Defined contribution plans are accounted for according to the matching principle. Contributions to the pension plan are recorded as expenses.

Cost of sales and other expenses

In principle, cost of sales and other expenses are recognized in the same period as the revenue to which they relate. In instances where there is no clear connection between the expense and revenue, the apportionment is estimated. Other exceptions to the matching criteria are disclosed where appropriate.

Income taxes

Tax expenses are matched with operating income before tax. Tax related to equity transactions e.g. group contribution, is recognized directly in equity.

Tax expense consists of current income tax expense and change in net deferred tax. Deferred tax liabilities and deferred tax assets are presented net in the balance sheet. Net deferred tax assets are not presented in the balance sheet.

Government grants

Investment grants are recognized in the balance sheet based on gross amounts, and allocated to operating income over the economic life of the investment. Operating grants received are matched with their corresponding costs.

Comments on the financial overview

COMPARISON BETWEEN 2022 AND 2021 FOR THE GROUP

INCOME STATEMENT

Net sales

There have been limited sales in 2022 and no sale in 2021.

Operating expenses

Operating expenses amounted to SEK 9,665 thousand in 2022, a decrease of SEK 2,009 thousand compared with 2021, when operating expenses amounted to SEK 11,674 thousand. The decrease is mainly due to lower consultant fees.

Operating profit

Operating profit amounted to SEK -9,325 thousand for 2022, an improvement of SEK 2,282 thousand compared with 2021, when operating profit amounted to SEK -11,607 thousand. The decrease in operating loss was due to lower consultant fees.

Net financial items

The company's net financial items amounted to SEK -239 thousand for 2022, a decrease of SEK 184 thousand compared with 2021, when net financial items amounted to SEK -55 thousand. The decrease in net financial items was primarily due interest costs and currency loss.

Profit after tax

Profit after tax amounted to SEK -9,564 thousand for 2022, an improvement of SEK 2,098 thousand compared with 2021, when profit after tax amounted to SEK -11,662 thousand. The decrease of loss for the period was mainly due to lower consultant fees.

CASH FLOW STATEMENT

Cash flow from operating activities

Cash flow from operating activities amounted to SEK -11,589 thousand for 2022, an improvement of SEK 284 thousand compared with 2021, when cash flow from operating activities amounted to SEK -11,873 thousand. The cash effect of the better earnings before tax is improved due to lower salary and consultant cost, however this improvement is nearly eliminated due to higher inventory purchases .

Cash flow from investing activities

Negative cash flow from investing activities amounted to SEK -2,957 thousand for 2022, an increase of SEK 84 thousand compared with 2021, when cash flow from investing activities amounted to SEK -3,041 thousand.

Cash flow from financing activities

Cash flow from financing activities amounted to SEK 10,776 thousand for 2022. The cash flow was 16,585 2021. In 2022 there has been a share issue during H2-2022, new loans and use of overdraft facilities. In 2021 the amount was due to share issues.

BALANCE SHEET

Fixed assets

The Group's fixed assets amounted to SEK 8,651 thousand 31 December 2022, a decrease of SEK 3,864 thousand compared to 31 December 2021, when the Group's fixed assets amounted to SEK 4,787 thousand. The increase in fixed assets was mainly due to an increase of intangible assets from R&D activities.

Current assets

The Group's current assets amounted to SEK 8,455 thousand 31 December 2022, a decrease of SEK 1,535 thousand compared to 31 December 2021, when the Group's current assets amounted to SEK 9,990 thousand. The decrease in current assets was primarily due to a decrease in cash, however stock has increased some, but not enough to equal the cash decrease.

Equity

Shareholders' equity amounted to SEK 4,027 thousand 31 December 2022, a decrease of SEK 6,727 thousand compared to 31 December 2021, when the Group's equity amounted to SEK 10,754 thousand. The decrease in equity is in accordance with the result for 2022 adjusted for capital increase and currency translation differences.

Liabilities

Liabilities amounted to SEK 12,228 thousand 31 December 2022, an increase of SEK 8,205 thousand compared to 31 December 2021, when the Group's liabilities amounted to SEK 4,023 thousand. The increase is mainly do new loans and use of overdraft facilities.

RESQUNIT

Väsentliga händelser efter räkenskapsårets utgång

Den 23 januari 2023 genomförde Resqunit en riktad nyemission på 3,75 miljoner kronor till de institutionella investerarna DSD AS och MIF Marine Invest till en teckningskurs om 4,50 kronor.

Den 24 januari 2023 ingick Resqunit ett distributionsavtal med Ad Mare Solutions Lda för att ta Resqunit Trap Recovery System till den portugisiska marknaden.

Den 14 februari 2023 tillkännagav Resqunit en betydande milstolpe i sin globala expansionsstrategi med undertecknandet av ett distributionsavtal med Intermas Group. Detta partnerskap kommer att möjliggöra att försäljning av Resqunits produkter i över 70 länder.

I Mars Resqunit AB är stolta över att kunna meddela att dess revolutionerande återhämtningssystem för krabb- och hummerfällor, Resqunit, nu skickas ut till kunder, vilket tidigare kommunicerats till marknaden.

Förväntad framtida utveckling och väsentliga riskfaktorer

Företaget möter ett mycket stort intresse för produkterna och förväntar sig ytterligare ordergång under hela året från USA, Kanada, Norden, Portugal, Spanien, Italien, Australien och Nya Zeeland. Vi ser en ständigt ökande medvetenhet och politiska muskler som appliceras på det ständigt ökande problemet med havsföroreningar.

Riskfaktorer

Tillräcklig finansiering kanske inte är tillgänglig i framtiden

Koncernen är beroende av ytterligare finansiering för att genomföra sin strategi och nå önskade tillväxtnivåer. I den mån koncernen inte genererar tillräckligt med likvida medel från verksamheten, vilket den inte förväntar sig att göra på kort sikt, kommer koncernen att behöva skaffa ytterligare medel genom offentlig eller privat skuld- eller aktiefinansiering för att genomföra koncernens strategi och för att finansiera kapitalutgifter.

Risker relaterad till produktion av koncernens produkt

Koncernen lägger delvis ut massproduktion av sina produkter på en tredjepartstillverkare, vilket medför risker. Koncernen kan vara oförmögen att ta emot produkter av tillfredsställande kvalitet och det finns en inneboende risk för att koncernens immateriella rättigheter kan göras intrång när produktionen av koncernens produkter läggs ut på entreprenad. Koncernen kan inte garantera att de mottagna produkterna kommer att ha en tillfredsställande kvalitet. Skulle någon av dessa risker förverkligas kan det ha en väsentlig negativ effekt på koncernens verksamhet, resultat, kassaflöden, finansiella ställning och/eller framtidsutsikter.

Noter

Not 1 Redovisnings- och värderingsprinciper

Resqunit AB (publ) årsredovisning har upprättats enligt årsredovisningslagen och Bokföringsnämndens allmänna råd BFNAR 2012:1 Års- och koncernredovisning (K3).

Inkomstskatter

Redovisade inkomstskatter innefattar skatt som skall betalas eller erhållas avseende aktuellt år, justeringar avseende tidigare års aktuella skatt samt förändringar i uppskjuten skatt. Värdering av samtliga skatteskulder/-fordringar sker till nominella belopp och görs enligt de skatteregler och skattesatser som är beslutade eller som är aviserade och med stor säkerhet kommer att fastställas. För poster som redovisas i resultaträkningen, redovisas även därmed sammanhängande skatteeffekter i resultaträkningen. Skatteeffekter av poster som redovisas direkt mot eget kapital, redovisas mot eget kapital.

Finansiella anläggningstillgångar

Finansiella anläggningstillgångar som är avsedda för långsiktigt innehav redovisas till anskaffningsvärde. Har en finansiell anläggningstillgång på balansdagen ett lägre värde är det bokförda värdet skrivs tillgången ner till detta lägre värde om det kan antas att värdenedgången är bestående.

Finansiella instrument

Finansiella instrument som redovisas i balansräkningen inkluderar värdepapper, kundfordringar och övriga fordringar, kortfristiga placeringar, leverantörsskulder och låneskulder. Instrumenten redovisas i balansräkningen när Resqunit AB (publ) blir part i instrumentets avtalsmässiga villkor. Finansiella tillgångar tas bort från balansräkningen när rätten att erhålla kassaflöden från instrumentet har löpt ut eller överförs och koncernen har överfört i stort sett alla risker och förmåner som är förknippade med äganderätten. Finansiella skulder tas bort från balansräkningen när förpliktelserna har reglerats eller på annat sätt upphört.

Kundfordringar och övriga fordringar

Fordringar redovisas som omsättningstillgångar med undantag för poster med förfallodag mer än 12 månader efter balansdagen, vilka klassificeras som anläggningstillgångar. Fordringar tas upp till det belopp som förväntas bli inbetalt efter avdrag för individuellt bedömda osäkra fordringar. Fordringar som är räntefria eller som löper med ränta som avviker från marknadsräntan och har en löptid överstigande 12 månader redovisas till ett diskonterat nuvärde och tidsvärdeförändringen redovisas som ränteintäkt i resultaträkningen.

Låneskulder och leverantörsskulder

Låneskulder och leverantörsskulder redovisas initialt till anskaffningsvärde efter avdrag för transaktionskostnader. Skiljer sig det redovisade beloppet från det belopp som ska återbetalas vid förfallotidpunkten periodiseras mellanskillnaden som räntekostnad över lånets löptid med hjälp av

REVISIONSBERÄTTELSE

Till bolagsstämman i Resqunit AB (publ), org.nr. 559339-6806

Rapport om årsredovisningen

Uttalanden

Jag har utfört en revision av årsredovisningen för Resqunit AB (publ) för år 2022.

Enligt min uppfattning har årsredovisningen upprättats i enlighet med årsredovisningslagen och ger en i alla väsentliga avseenden rättvisande bild av Resqunit AB (publ)s finansiella ställning per den 31 december 2021 och av dess finansiella resultat för året enligt årsredovisningslagen. Förvaltningsberättelsen är förenlig med årsredovisningens övriga delar.

Jag tillstyrker därför att bolagsstämman fastställer resultaträkningen och balansräkningen.

Grund för uttalanden

Jag har utfört revisionen enligt International Standards on Auditing (ISA) och god revisionssed i Sverige. Mitt ansvar enligt dessa standarder beskrivs närmare i avsnittet *Revisorns ansvar*. Jag är oberoende i förhållande till Resqunit AB (publ) enligt god revisionssed i Sverige och har i övrigt fullgjort mitt yrkesetiska ansvar enligt dessa krav.

Jag anser att de revisionsbevis jag har inhämtat är tillräckliga och ändamålsenliga som grund för mina uttalanden.

Styrelsens och verkställande direktörens ansvar

Det är styrelsen och verkställande direktören som har ansvaret för att årsredovisningen upprättas och att den ger en rättvisande bild enligt årsredovisningslagen. Styrelsen och verkställande direktören ansvarar även för den interna kontroll som de bedömer är nödvändig för att upprätta en årsredovisning som inte innehåller några väsentliga felaktigheter, vare sig dessa beror på oegentligheter eller misstag.

Vid upprättandet av årsredovisningen ansvarar styrelsen och verkställande direktören för bedömningen av bolagets förmåga att fortsätta verksamheten. De uppger, när så är tillämpligt, om förhållanden som kan påverka förmågan att fortsätta verksamheten och att använda antagandet om fortsatt drift.

Antagandet om fortsatt drift tillämpas dock inte om styrelsen och verkställande direktören avser att likvidera bolaget, upphöra med verksamheten eller inte har något realistiskt alternativ till att göra något av detta.

Revisorns ansvar

Mina mål är att uppnå en rimlig grad av säkerhet om huruvida årsredovisningen som helhet inte innehåller några väsentliga felaktigheter, vare sig dessa beror på oegentligheter eller misstag, och att lämna en revisionsberättelse som innehåller mina uttalanden. Rimlig säkerhet är en hög grad av säkerhet, men är ingen garanti för att en revision som utförs enligt ISA och god revisionssed i Sverige alltid kommer att upptäcka en väsentlig felaktighet om en sådan finns. Felaktigheter kan uppstå på grund av oegentligheter eller misstag och anses vara väsentliga om de enskilt eller tillsammans rimligen kan förväntas påverka de ekonomiska beslut som användare fattar med grund i årsredovisningen.

En ytterligare beskrivning av mitt ansvar för revisionen av årsredovisningen finns på Revisorsinspektionens webbplats: www.revisorsinspektionen.se/revisornsansvar. Denna beskrivning är en del av revisionsberättelsen.

Rapport om andra krav enligt lagar och andra författningar

Uttalanden

Utöver min revision av årsredovisningen har jag även utfört en revision av styrelsens och verkställande direktörens förvaltning för Resqunit AB (publ) för år 2022 samt av förslaget till dispositioner beträffande bolagets vinst eller förlust.

Jag tillstyrker att bolagsstämman disponerar vinsten enligt förslaget i förvaltningsberättelsen och beviljar styrelsens ledamöter och verkställande direktören ansvarsfrihet för räkenskapsåret.

Grund för uttalanden

Jag har utfört revisionen enligt god revisionssed i Sverige. Mitt ansvar enligt denna beskrivs närmare i avsnittet *Revisorns ansvar*. Jag är oberoende i förhållande till Resqunit AB (publ) enligt god revisionssed i Sverige och har i övrigt fullgjort mitt yrkesetiska ansvar enligt dessa krav.

Jag anser att de revisionsbevis jag har inhämtat är tillräckliga och ändamålsenliga som grund för mina uttalanden.

Styrelsens och verkställande direktörens ansvar

Det är styrelsen som har ansvaret för förslaget till dispositioner beträffande bolagets vinst eller förlust. Vid förslag till utdelning innefattar detta bland annat en bedömning av om utdelningen är försvarlig med hänsyn till de krav som bolagets verksamhetsart, omfattning och risker ställer på storleken av bolagets egna kapital, konsolideringsbehov, likviditet och ställning i övrigt.

Styrelsen ansvarar för bolagets organisation och förvaltningen av bolagets angelägenheter. Detta innefattar bland annat att fortlöpande bedöma bolagets ekonomiska situation och att tillse att bolagets organisation är utformad så att bokföringen, medelsförvaltningen och bolagets ekonomiska angelägenheter i övrigt kontrolleras på ett betryggande sätt. Den verkställande direktören ska sköta den löpande förvaltningen enligt styrelsens riktlinjer och anvisningar och bland annat vidta de åtgärder som är nödvändiga för att bolagets bokföring ska fullgöras i överensstämmelse med lag och för att medelsförvaltningen ska skötas på ett betryggande sätt.

Revisorns ansvar

Mitt mål beträffande revisionen av förvaltningen, och därmed mitt uttalande om ansvarsfrihet, är att inhämta revisionsbevis för att med en rimlig grad av säkerhet kunna bedöma om någon styrelseledamot eller verkställande direktören i något väsentligt avseende:

- företagit någon åtgärd eller gjort sig skyldig till någon försummelse som kan föranleda ersättningsskyldighet mot bolaget, eller
- på något annat sätt handlat i strid med aktiebolagslagen, årsredovisningslagen eller bolagsordningen.

Mitt mål beträffande revisionen av förslaget till dispositioner av bolagets vinst eller förlust, och därmed mitt uttalande om detta, är att med rimlig grad av säkerhet bedöma om förslaget är förenligt med aktiebolagslagen.

Rimlig säkerhet är en hög grad av säkerhet, men ingen garanti för att en revision som utförs enligt god revisionssed i Sverige alltid kommer att upptäcka åtgärder eller försummelser som kan föranleda ersättningsskyldighet mot bolaget, eller att ett förslag till dispositioner av bolagets vinst eller förlust inte är förenligt med aktiebolagslagen.

En ytterligare beskrivning av mitt ansvar för revisionen av förvaltningen finns på Revisorsinspektionens webbplats: www.revisorsinspektionen.se/revisornsansvar. Denna beskrivning är en del av revisionsberättelsen.
